c.1855-1880

1124-1100 William St. (West side)

Baltimore, Md.

Private access

The west side of the 1100 block of William St. is improved with several different groups of two and three story houses. At 1122-1124 William St. there is a pair of three story, two bay wide brick houses with shed roofs and bracketed cornice, built in the late 1850's or 1860's. Adjoining to the north, at 1114-1120 William St., is a group of three story, three bay wide brick houses with gable roofs, built about 1855 by Conrad Linderman, a local baker. The houses at 1102-1106 William St. are a group of late Victorian style, two story, two bay wide brick houses with shed roofs and bracketed cornices, built in the late 1870's. A house originally similar to the previously mentioned row, at 1100 William St., has recently been renovated with a totally rebuilt facade. The present structure is a two story, three bay wide brick house with shed roof and simple brick cornice, with a first floor storefront area designed in a traditional or "colonial" manner, with central door flanked by multi-paned shop windows.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This pair of three story, two bay brick houses with shed roofs and modillion cornice were built somewhat later than the adjoining row of gable roofed houses.

The houses are three stories in height, 1122 William St. is 13' wide, and 1124 William St. is 15' wide, and both occupy lots 85' deep. Each house has a three story high, one bay wide and deep stair hall extension which connects the main house to a two story high, two bay deep rear addition.* 1124 William has an extra one story high, two bay deep addition, followed by a two bay deep frame section. There is a one bay deep frame second story built on the first bay of the one story high brick addition. 1122 William has an extra one story high, two bay deep section. The houses are constructed in running bond. The shed roof is capped by a continuous wooden cornice consisting of a deeply projecting crown molding that was supported by a row of grooved modillions (only three remain) and is set above a row of smaller modillions and a plain frieze area. Each house has a double rectangular chimney located along the north side of the house. Each house also has a rear end chimney located at the west end of the two story addition. *The original rear additions of 1124 William (the stair part and the two story, two bay section) have been widened and heightened so that now the rear of the house is filled in to the third story for the full width of the house.

All of the door and window openings have segmentally arched brick lintels and brick header sills. At 1122 William there are scroll-sawed tympanums; at 1124 William the tympanums are solid wood. All of the window openings at 1122 William are filled with the original 4/4 double hung sash; the window openings at 1124 William are filled with 1/1 double hung sash, except for the first floor window which is somewhat wider and is filled with a double hung, 3/1 sash. 1122 William has a modern flush door set beneath a two-light transom; 1124 William has a Mission-style door set beneath a single light transom. The houses sit on very low basements, the entrances being reached by two stone steps at 1122 William and by no steps at 1124 William. 1122 William has a rectangular basement opening located to the right of the steps.

STATEMENT OF SIGNIFICANCE

See under 1114-1120 William St.

These houses were probably built with a front gable roof as on the adjoining houses at 1114-1120 William St., with the modillion cornice being added later. The first owner-occupant of 1122 William St. was a Hugo Zinkhand, a cooper, who lived here in the 1870's. The first owner-occupant of 1124 William St. was Bernhard Freesman, who operated a grocery store on the first floor of the house in the 1870's.¹
